UNDERGARMENT OR UNDERSHIRT

During the Middle Ages underwear for women was unknown. Beneath the dress they wore an undergarment or undershirt (from Italian) made of linen instead, which also served as a nightgown. This undergarment's cut was very simple, it reached, depending on the respective fashion, down to the knees or ankles.

You can either sew a little "tunnel" for a ribbon at the collar, or else just leave it to get a simple collar.
